

Tank-mix Sheet

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer Crop Science gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with Betanal® Tandem®. Contact Bayer Crop Science for full details.

Always maintain continuous agitation of the spray tank during mixing, transportation and application.

Betanal® Tandem® should always be applied in mixture with a suitable adjuvant oil such as 95% methylated rape seed adjuvant oil or 95% methylated vegetable adjuvant oil.

Betanal® Tandem® + a suitable adjuvant oil are physically compatible with any **ONE** of the following tank-mix partners:

Herbicides
