# Yield analysis

- This feature is only available in the app but coming to web in 2021

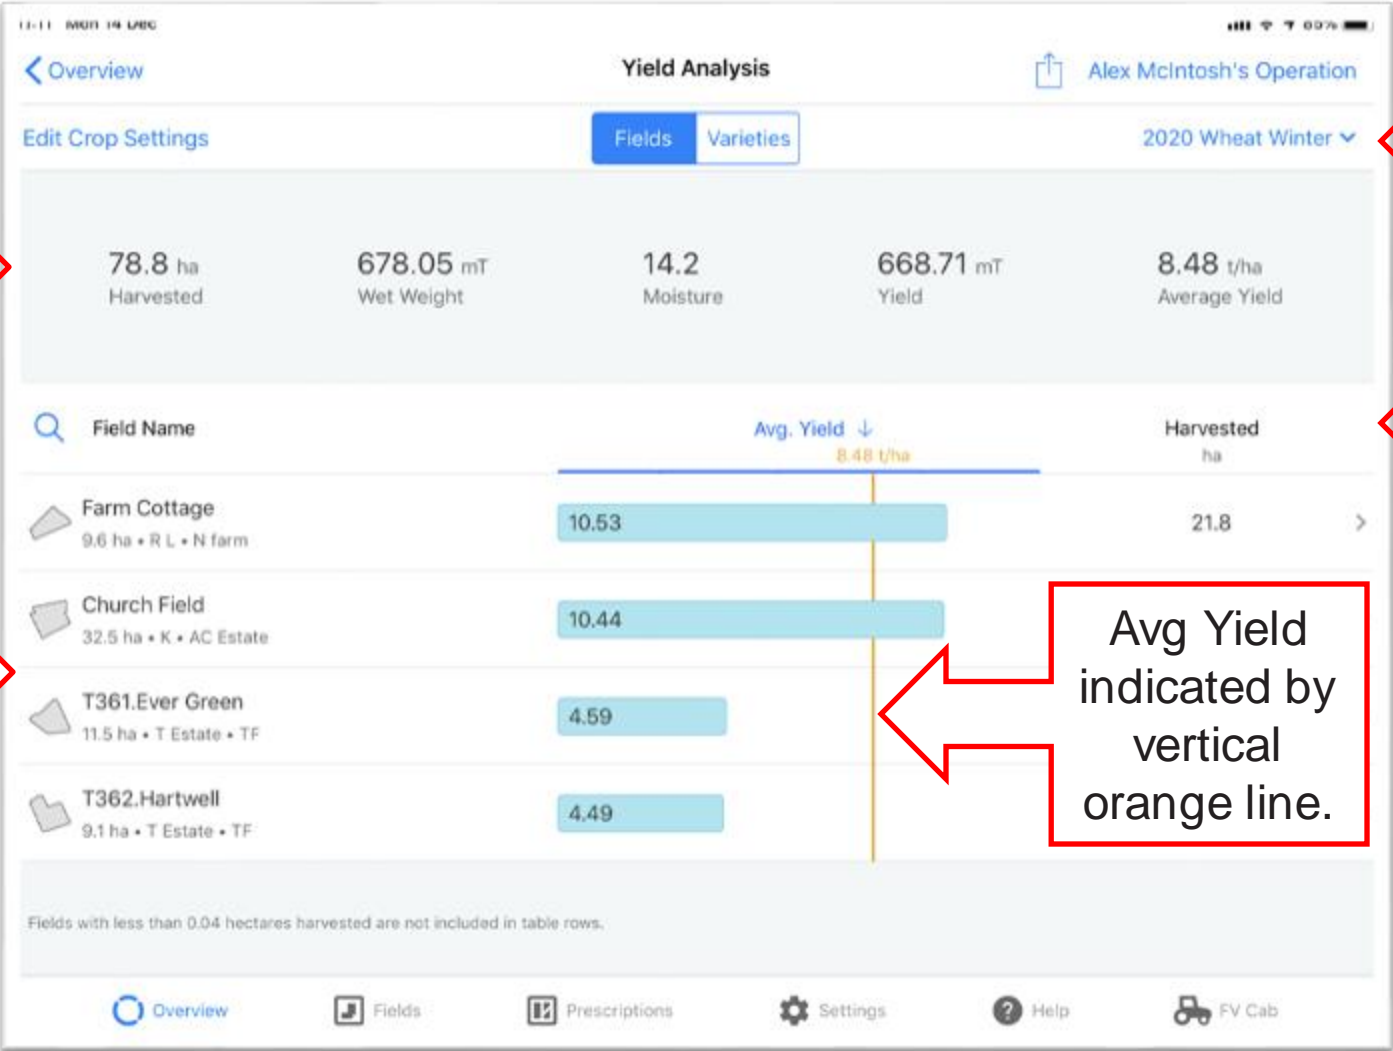

- Click on the Yield analysis card in the top right on the home page of the app.

# Yield analysis overview page

- The yield analysis page provides a summary of yield by crop type.

Farm totals and averages. Based on which operation and crop is selected in the top right.

Select year and crop type.

Tap to sort by Name, Avg Yield or Area.

Tap on a field for more detailed insights.

Avg Yield indicated by vertical orange line.
