**FIELDVIEW**™

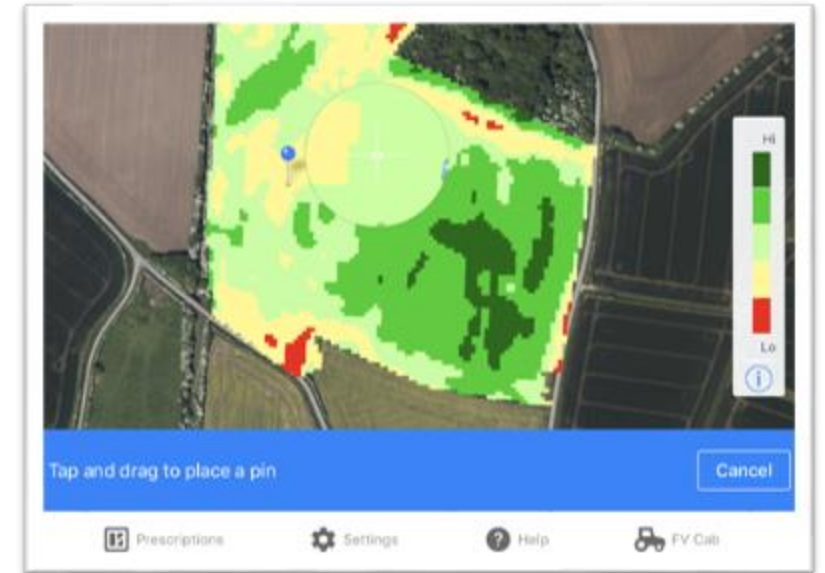

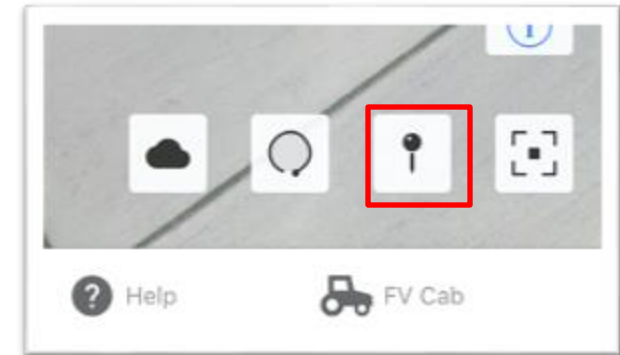

## Recording observations

- It's possible to record field observations in both the FieldView app and online.
- Online – Select a field on the map or search in the list on the left.
- App – Select fields at the bottom of the screen then select the field you want from the map or search from the list on the left.

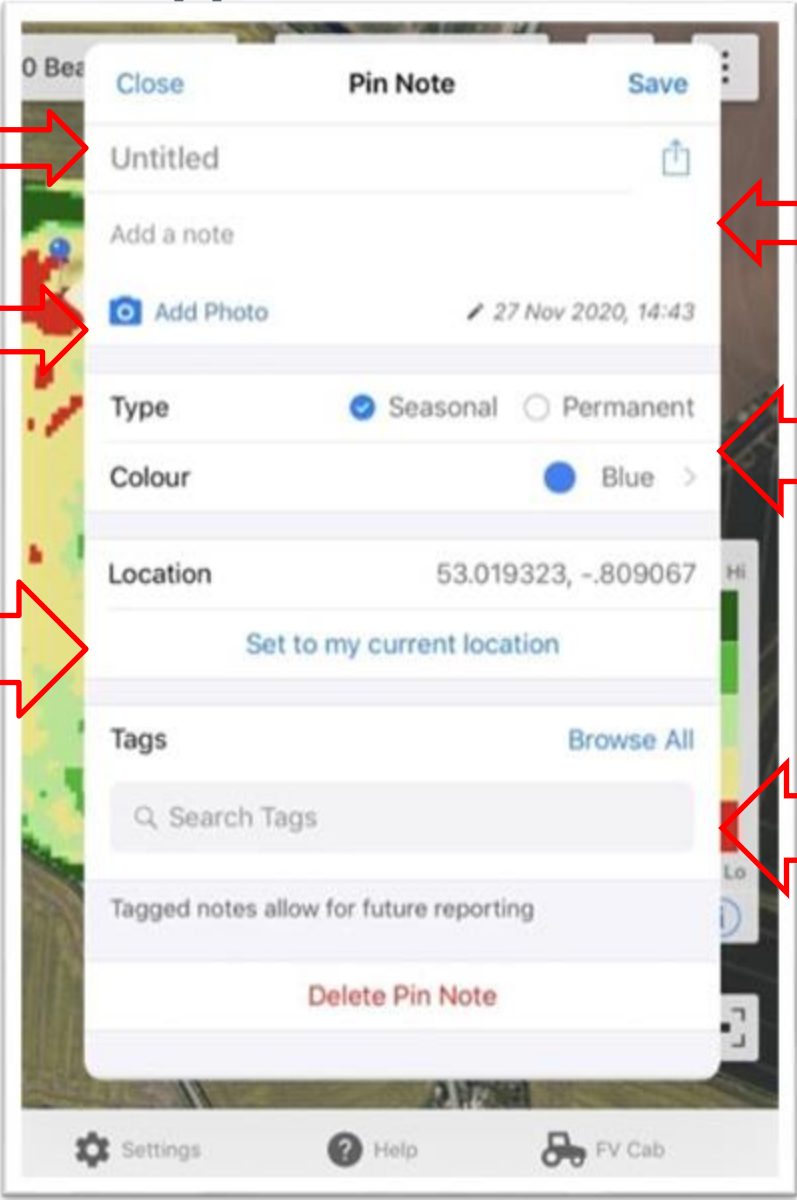

## Recording observations - App

- Select the pin symbol in the bottom right of the screen
- Tap on the map to drop a pin at that location or tap, hold and drag and place the pin more precisely.

# Recording observations - App

Name your observation

Tap here to take a photo or add one saved on your device

Tap here to move the pin to your location using the internal GPS of your device.

Add more detail and notes

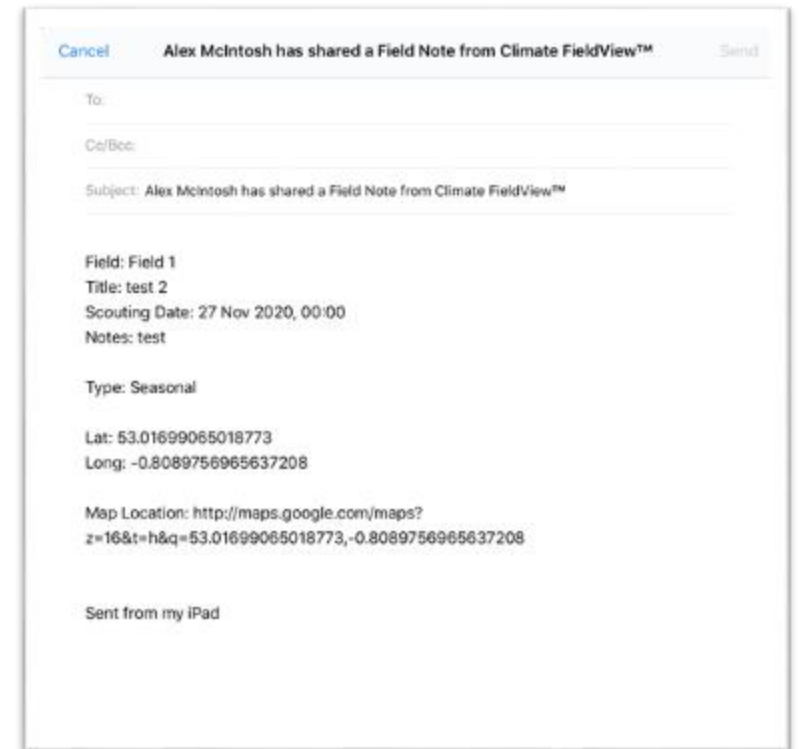

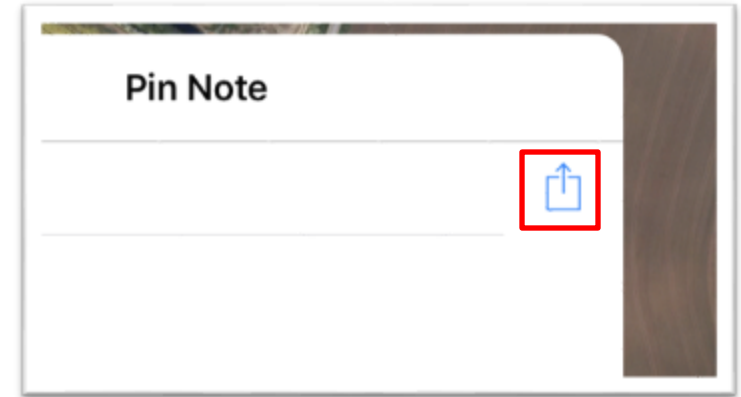

You can choose the type and colour of the pin to help manage your observations.

You can manage your pins further by adding custom tags

## Recording observations - App

- It's possible to share a pin by clicking the icon next to the pin title.
- You can share the pin via email, text or other connected apps.
- This will share all details of the pin as well as link which will take you to the location on Google Maps.

## Recording observations - Online

- Select the pin symbol in the bottom right of the screen then click on the map to drop a pin.
- Online you don't have the option to move the pin once placed.
- Pins created online will be visible in the app when out in the field.
- This feature is best used to plan scouting activities prior to walking the fields.

## Recording observations - Online

Online there are fewer options than you get on the app. You can:

- Add a title
- Add notes
- Change the colour
- Set the date
- Choose the type of pin. (Seasonal or Permanent)
