

InVigor®

You'll be glad you planted it.

Bayer CropScience hybrid oilseed rape seed order process

- One of Bayer's appointed agents will take your seed orders and provide you as a grower with technical support.
- The agent will set up your farm business details on Bayer CropScience's seed portal and enter the seed order.
- You will be sent an automated email from Bayer CropScience to accept their terms and conditions.
- Bayer have introduced this system because they believe that seed stewardship will become more important in the future. This system will give interested parties and decision makers confidence that novel genetics can safely be introduced in the UK.

Bayer CropScience

Acceptance of the terms & conditions is a simple process

What will happen?

After the agent has added your farm business details into Bayer's seed portal, you will receive an email containing a link to the Bayer website to view their terms and conditions.

A simple click accepts/declines terms & conditions (you only need to do this once, for your first order).

You will receive an email from Bayer confirming acceptance of T&Cs and receipt of your seed order.

The agent delivers the seed and is responsible for collection of payment.

For a list of appointed agents for Bayer's InVigor hybrids please visit www.bayercropscience.co.uk/our-products/seeds/stockists
