

InVigor® Builder

You'll be glad you planted it.

Early maturing spring oilseed rape hybrid with high oil content

- Very high yields with the added bonus of high oil content
- Extremely vigorous growth
- Medium-early maturity
- Available exclusively from Agrii

Variety description

Builder is a spring oilseed rape hybrid

Yield components

Gross output	102%	Very high
Seed yield	101%	Very high
Oil %	45.5%	Very high
Glucosinolate content	13.8µmol	Medium

Agronomy

Regional suitability	National
Soil types	No differences known
Sowing date	Mid March – mid April
Sowing method	No differences known
Harvest method	Desiccation or swathing

Variety characteristics

Early vigour	low	●●●●●	high
Earliness of flowering	late	●●●●●	early
Earliness of maturity	late	●●●●●	early
Plant height	tall	●●●●●	short
Lodging resistance	low	●●●●●	high

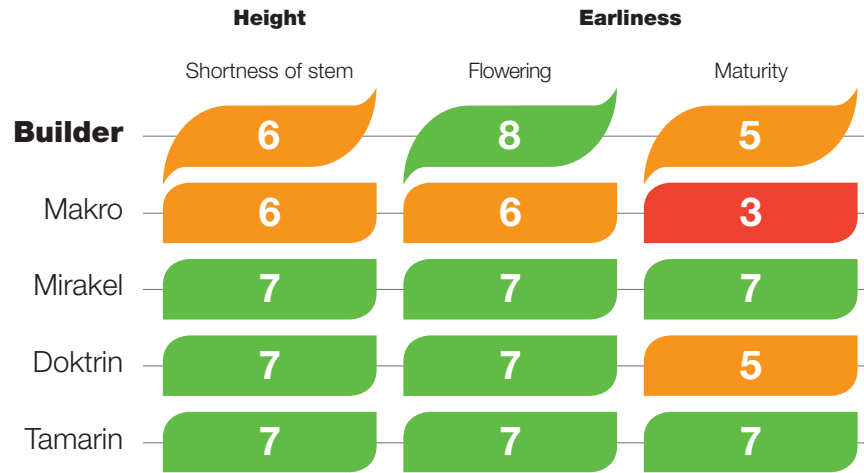

Ease of management

Builder has a vigorous growth habit which aids rapid establishment and resilience to pest attack.

Builder is medium tall, combining a higher biomass characteristic than the older hybrids which helps to build its high yields. It flowers early and benefits from medium-early maturity allowing the full development of its high oil content before a reasonably timed harvest. It has shown consistent performance over several years of testing in official trials.

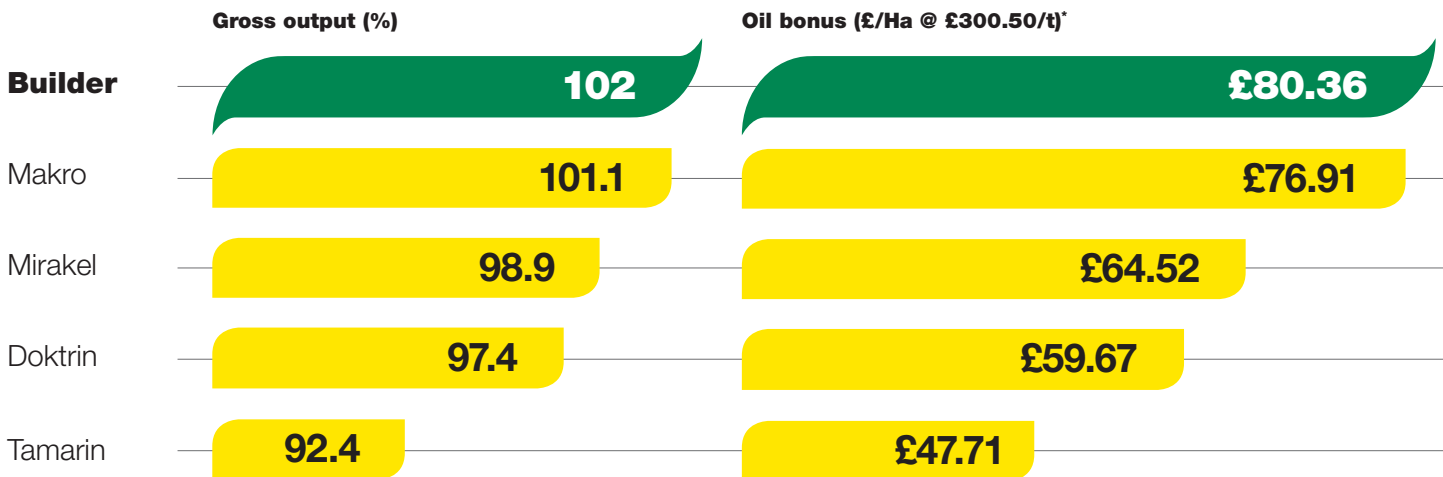

■ Low: 1–4 ■ Medium: 5–6 ■ High 7–9

Higher scores reflect that the variety shows the characteristic to a higher degree. Data extracted from AHDB DL 2018/19.

Performance and income

Builder delivers very high returns through a combination of high seed yield plus exceptional oil bonus.

Data extracted from AHDB DL 2018/19. * Based on DL gross output and a grain price of £300.50/t.

Treatment

Builder seed is supplied in 2.1m viable seed packs treated with:

Thiram

Builder is available exclusively from Agrii
